Designed by
DENNIS VAN ZANDEN

A conceptual thinker with a mind that tends to wander off into the unknown, Dennis van Zanden is a South African dreamer and Dutch designer with a unique perspective for “new age” artistic mixed media design. He has mesmerizing passion and desire to bring bold forms of contemporary art to plain canvasses and he tends to use beautiful and idiomatic methods when creating them.

Being rebellious in terms of graphic design is his main skill set, but he believes that loving what you do and being at peace with yourself when doing it, is the biggest skill achievable.

Nefertari
the African queen,

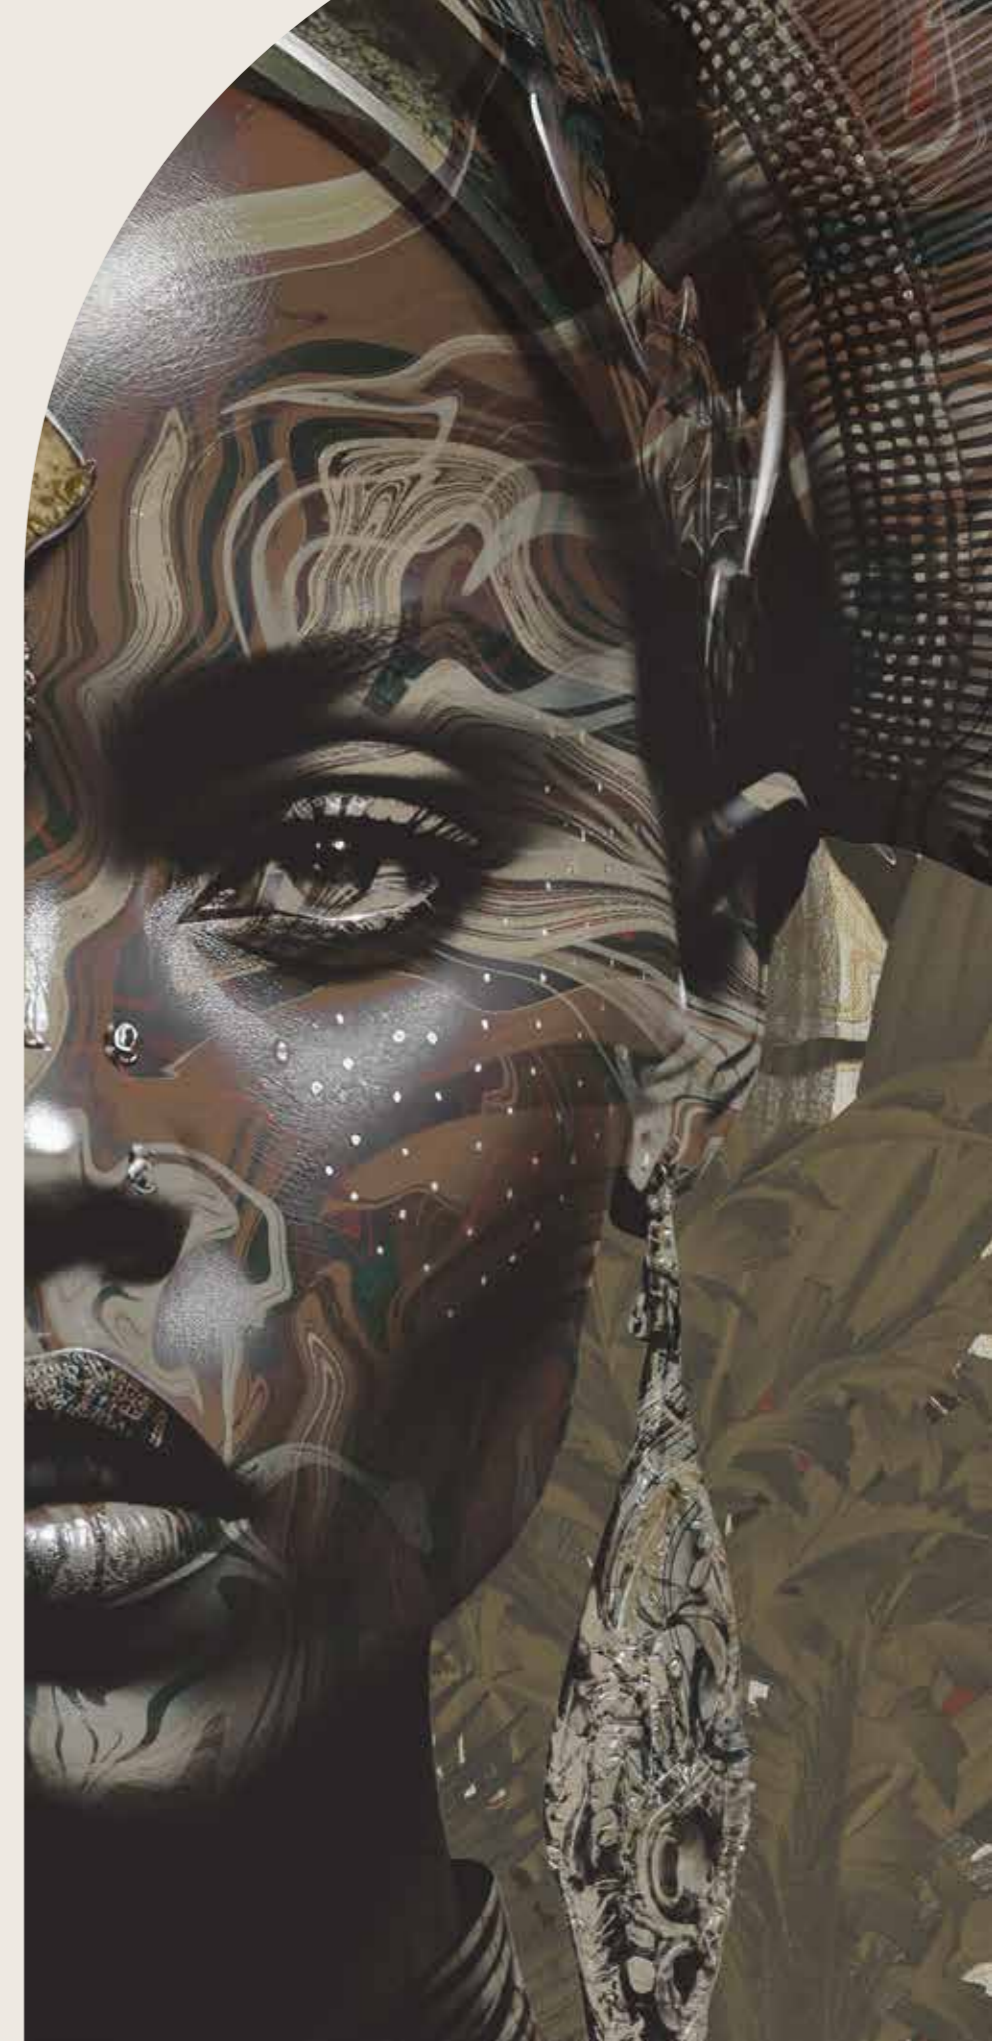

She has unmatched beauty and
intelligence.

Nefertari, the African queen

Nefertari was born into a royal family and was destined to rule. She was trained in the art of diplomacy, warfare, and governance from a young age, and quickly proved herself to be a gifted leader. Her beauty was only matched by her intelligence, and she could converse with the most learned scholars of the land.

As queen, Nefertari is loved and respected by all. She worked tirelessly to improve the lives of her people, building hospitals, schools, and public works. She was a champion of women's rights, and worked to empower the women of her kingdom in all areas of life.

Nadira

Nadira was a woman of the land, born and raised in a small village in Africa. She spent most of her days in the fields, tending to the crops that sustained her community. But there was something special about Nadira, something that set her apart from the others. With the touch of her skin, she could grow the most lush and vibrant gardens.

As word of her talent spread, people from all over the region came to Nadira for help. She never disappointed, and with her touch, she could coax the smallest seedling to grow into a towering tree or turn a parched wasteland into a blooming oasis. Some even believed that she was a goddess, sent from the heavens to bless the earth.

Despite the fame and recognition, Nadira remained humble and grounded. She continued to tend to her gardens, day after day, year after year, watching as the world around her changed. When she passed away, the people of her village planted a garden in her honor, a testament to the legacy that she had left behind. And though she was gone, her touch lingered on, as the plants she had nurtured continued to grow and thrive, long after she was gone.

Introducing the lush tropical “Nadira” wallpaper design that will instantly transport you to a paradise-like oasis. With its vibrant golden palm leaves and exotic fauna, this wallpaper is the perfect way to add a touch of nature to any room. The intricate details and realistic colors make it feel like you are surrounded by a lush jungle, creating a tranquil and relaxing atmosphere. This wallpaper design is versatile and can be used in any room, from the living room to the bedroom, bringing a touch of the outdoors inside.

“Infuse your space with the vibrant colors and rich culture of Africa with our breathtaking mural designs.”

Illustration by
JET EBELTJES

Amani Nia

Amani was a young African lady born in a small village nestled at the foot of the mountains. From a very young age, she discovered her passion for music and would often sing in the fields while tending to her family's crops. Her voice was pure and melodic, and her soulful singing captivated anyone who heard it.

Despite her modest upbringing, Amani's talent became known throughout the village and beyond. People from neighboring villages would come just to hear her sing, and it wasn't long before her reputation spread far and wide. Her voice became a symbol of hope and inspiration for many, and her songs were cherished for their uplifting messages and beautiful melodies.

As Amani's fame grew, so did her desire to share her music with the world. She set out on a journey that would take her across Africa and beyond, singing in bustling cities and remote villages, spreading her message of love and hope wherever she went. People of all ages and backgrounds were moved by her voice, and her music brought joy and healing to those who heard it. Amani's sweet singing voice became a beacon of light in the world, reminding people of the beauty and goodness that still existed amidst the struggles of life.

Technical material specifications

Matt non-woven

The Muance matt non-woven wallpaper is a dimensionally stable product that is most commonly used for the residential market. The base is made out of a fabric-like material made from long fibers, bonded together by a heat treatment. This process creates a mesh that bonds the wood fibers tightly together making the product extremely durable. The matt non-woven is made without textured embossing and an additional protective varnish (heavy metal free) is added for extra washability and scrub resistance.

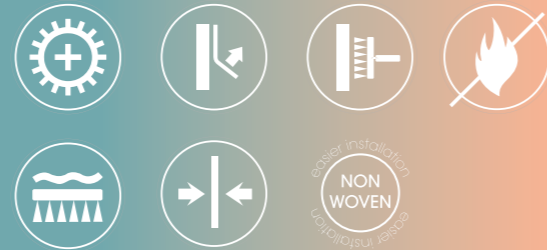

- PVC free and environmentally friendly
- Weight: 155g/m²
- Thickness: 0.16 mm
- Printed with ECO friendly toner dry ink
- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- No addition of formaldehyde or heavy metal compounds.
- Width: 50 cm (19,68 inch)
- Dry-removable: comes off easily.
- Matt finish
- Residential material

Textured Vinyl

Muance uses a brilliant white textured vinyl wallcovering with a non-woven backing. It is suitable for a whole range of applications, from an personalized mural for consumers or a tailor made and decorative wallcovering for hotels, offices or (healthcare) institutions, to a durable shop interior or creative set design. The textured coated surface ensures a striking and vibrant color range.

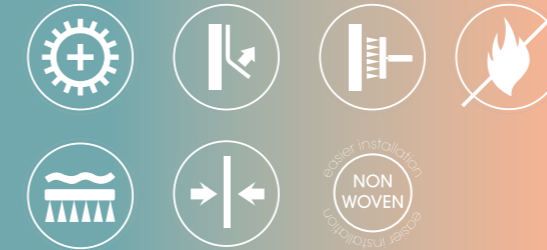

- Vibrant colors
- Weight: 350g/m²
- Thickness: 0.50 mm
- Printed with ink (Green guard certificate, low chemical emissions)
- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- Width: 50 cm (19,68 inch) & 100 cm (39,37 inch)
- Dry-removable: comes off easily.
- Textured finish
- 100% Anti-Microbial (treated with biocide)
- Contract material
- Super washable
- Scratch resistant

Textile

Muance uses a high end quality textile wallcovering with actual cotton threading, the substrate is extremely durable, breathable, stain-resistant and provides exceptional insulation. Due to its textile top layer, the wallcovering gets a unique and gorgeous high end effect.

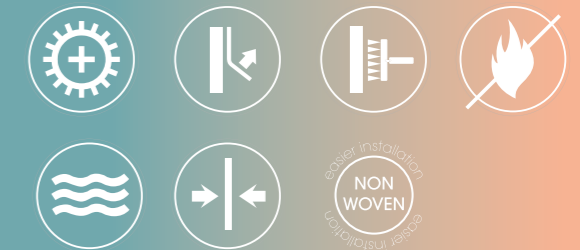

- Weight: 250g/m²
- Thickness: 0.50 mm
- Printed with ink (Green guard certificate, low chemical emissions)
- UV-resistant
- Fire Classification Cs1-d0 (European) & ASTM 84 (American)

- Textile wallcovering
- Contract quality
- Super washable
- Scratch resistant
- High end effect

Metallic range

The Muance metallic (gold, silver and copper) range offers you the opportunity to add a glamorous metallic effect to your wall. With a metallic coating on top of a dimensionally stable non-woven backing, the wallpaper is suited for the residential market and the contract market.

- Metallic effect
- Weight: 220g/m²
- Thickness: 0.25 mm
- Printed with ink (Green guard certificate, low chemical emissions)
- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)

Pasting Guide

Step 1:

- Take the time to orientate
- Unpackage and unroll the wallpaper on a flat clean surface
- Pay attention to each panel number on top of every panel, this must follow in sequence (panel 1,2,3,4 ect..)

Step 2:

- Your wall must be completely flat, clean and dry. Levels rough surfaces, rough, holes and uneven spots.
- Your wall should be a uniform color. If not, you may notice differences in color on your wall once installed. If your wall has multiple colors, we recommend that you paint again.
- Make a vertical line with a plumb line on the left edge of the area you want to cover with the mural. If you have a plumb, one can make your own by tying a heavy object on the end of a rope. This line is very important because it is the guide to start placing your mural.

Step 3:

- Applying glue on the wall evenly using a brush or a paint roller. Start distributing from the line you marked as a guide to the plummet. Don't paste the entire wall, do it only in the area that will cover the first panel on the left, leaving a few inches outside the right.
- Apply the first panel of the mural on the wall starting at the top left. Check that is aligned with the guide.
- Press against the paper with a dry roller or sponge to remove any air bubbles.
- Place the following panels in the same way in numerical order. The panels must not be mounted on each other but are set on edge.

Step 4:

- Clean the excess glue with a damp sponge.
- With the help of a ruler and a cutter, adjust the sides and the top and bottom of the wall if necessary.
- Let the wall dry for 24 hours; you will get a perfect final result
