

MUANCE

Introduction of Muance

Majestic walls with nuance

Muance is a Dutch contemporary design brand with a unique focus on digital wallpaper products, printed on exceptional materials. The Muance wallpaper collection offers a diverse range of beautiful, colorful and stylish designs which can be suited in most environments with the added potential to inspire the eye of the beholder. Interior design is ever evolving, styles and ideas are continuously flowing and the need for “out of the box” thinking is growing by the day. Do you have a profound interest for daring designs and are you in need of a wallpaper that will transform your space? Indulge yourself and embrace what Muance has to offer.

Technical material specifications

Matt non-woven

The Muance matt non-woven wallpaper is a dimensionally stable product that is most commonly used for the residential market. The base is made out of a fabric-like material made from long fibers, bonded together by a heat treatment. This process creates a mesh that bonds the wood fibers tightly together making the product extremely durable. The matt non-woven is made without textured embossing and an additional protective varnish (heavy metal free) is added for extra washability and scrub resistance.

- PVC free and environmentally friendly
- Weight: 155g/m²
- Thickness: 0.16 mm
- Printed with ECO friendly toner dry ink
- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- No addition of formaldehyde or heavy metal compounds.
- Width: 50 cm (19,68 inch)
- Dry-removable: comes off easily.
- Matt finish
- Residential material

Textured Vinyl

Muance uses a brilliant white textured vinyl wallcovering with a non-woven backing. It is suitable for a whole range of applications, from an personalized mural for consumers or a tailor made and decorative wallcovering for hotels, offices or (healthcare) institutions, to a durable shop interior or creative set design. The textured coated surface ensures a striking and vibrant color range.

- Vibrant colors
- Weight: 350g/m²
- Thickness: 0.50 mm
- Printed with ink (Green guard certificate, low chemical emissions)
- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- Width: 50 cm (19,68 inch) & 100 cm (39,37 inch)
- Dry-removable: comes off easily.
- Textured finish
- 100% Anti-Microbial (treated with biocide)
- Contract material
- Super washable
- Scratch resistant

Textile

Muance uses a high end quality textile wallcovering with actual cotton threading , the substrate is extremely durable, breathable, stain- resistant and provides exceptional insulation. Due to it's textile top layer, the wallcovering get a unique and gorgeous high end effect.

- Weight: 250g/m2
- Thickness: 0.50 mm
- Printed with ink (Green guard certificate, low chemical emissions)
- UV-resistant
- Fire Classification Cs1-d0 (European) & ASTM 84 (American)
- Width: 50 cm (19,68 inch) & 100 cm (39,37 inch)
- Dry-removable: comes off easily.
- Textile wallcovering
- Contract quality
- Super washable
- Scratch resistant
- High end effect

Metallic range

The Muance metallic (gold, silver and cropper) range offers you the opportunity to add a glamorous metallic effect to your wall. With a metallic coating on top of a dimensionally stable non-woven backing, the wallpaper is suited for the residential market and the contract market.

- Metallic effect
- Weight: 220g/m2

- UV-resistant
- Fire Classification Bs1-d0 (European) & ASTM 84 (American)
- Width: 50 cm (19,68 inch)
- Dry-removable: comes off easily.
- Contract quality
- Super washable

Pasting Guide

Step 1:

- Take the time to orientate
- Unpackage and unroll the wallpaper on a flat clean surface
- Pay attention to each panel number on top of every panel, this must follow in sequence (panel 1,2,3,4 ect..)

Step 2:

- Your wall must be completely flat, clean and dry. Levels rough surfaces, rough, holes and uneven spots.
- Your wall should be a uniform color. If not, you may notice differences in color on your wall once installed. If your wall has multiple colors, we recommend that you paint again.
- Make a vertical line with a plumb line on the left edge of the area you want to cover with the mural. If you do not have a plumb, you one can make your own by tying a heavy object on the end of a rope. This line is very important because it is the guide to start placing your mural.

Step 3:

- Applying glue on the wall evenly using a brush or a paint roller. Start distributing from the line you marked as a guide to the plummet. Don't paste the entire wall, do it only in the area that will cover the first panel on the left, leaving a few inches outside the right.
- Apply the first panel of the mural on the wall starting at the top left. Check that is aligned with the guide.
- Press against the paper with a dry roller or sponge to remove any air bubbles.
- Place the following panels in the same way in numerical order. The panels must not be mounted on each other but are set on edge.

Step 4:

- Clean the excess glue with a damp sponge.
- With the help of a ruler and a cutter, adjust the sides and the top and bottom of the wall if necessary.
- Let the wall dry for 24 hours; you will get a perfect final result
